

S-30 Series Biological Microscope

S-30 Series Biological Microscope use excellence Infinite Optics System , which making clear image and handy operate and it can be convenience to outfit all kinds of attachment . It can be used in biological, organic pathological and pharmaceutical research, It also can be used in College and other science researches.

Mainly feature

1. The excellent Infinity optics systems and advanced appearance .
2. There are many different accessories according to customers requirements, including dark field, phase contrast accessories, polarizing kits, and fluorescence light etc.
3. Gemel type of binocular head or trinocular head, Interpupillary Distance: 55 °C 75MM
4. Built-in illumination, Adjustable Brightness.

Power Supply 110V or 230V, CE Approval.

Specification

Viewing Head 360° Rotatable	Gemel type Compensation Free Binocular Head Inclined at 30° Gemel type Compensation Free Trinocular Head Inclined at 30°
Eyepiece	WF10 X WF16 X WF20 X
Objective	Infinity Achromatic Objective 4x,10x,40x(S),100x(S)oil Infinity Plan Achromatic Objective 4x,10x,40x(S),100x(S)oil
Large Stage	Mechanical stage :150mm X 155mm Moving Range 80mm x 50mm
Condenser	Abbe NA 1.25 condenser with Iris Diaphragm & Filter
Focusing	Coaxial Coarse & Fine focus adjustment with fix position
Illumination	Built-in Illumination, Halogen Lamp 6V/20W or 12V/30W, Adjustable Brightness

Optional accessories

1. Dark field condenser as Dark Field Microscope
2. phase contrast accessories
3. polarizing kits
4. Photo accessories
5. TV adapter
6. PC computer adapter
